Our Customers asked the Adaptivemall.com® Internet Catalog for a printed version, and here it is:  
**Adaptivemall.com OFFLINE™**

That's me, Katie Bergeron, with some of the children from Early Intervention that I have worked with and their siblings. I am a licensed Pediatric Physical Therapist with hands-on experience with many wonderful children and their families. I understand how important getting the appropriate adaptive equipment can be for children, their parents, and caregivers. My sister, Carrie, is a young adult with Down syndrome. My family's experience with Carrie has provided insight into the many challenges and rewards that go along with being blessed with a child with special needs.

Our services at the Adaptivemall.com® help families find the best equipment to support their children at their highest functioning level. We have created an experience for you that makes equipment selection a positive one. Our primary goal is to empower you with resources that allow you and your child's primary caregivers to make the best decisions to meet your child's unique needs. Start exploring with this catalog and online at [www.adaptivemall.com](http://www.adaptivemall.com)®!

*Katie Bergeron, PT, MS*

Katie Bergeron, PT, MS  
President & COO  
Adaptivemall.com®

At the Adaptivemall.com®, we know how important it is for children with special needs to be given every opportunity possible. From years of experience, both personal and professional, we get it...

### We Understand!™

#### OT/PT Help

The Adaptivemall.com® is staffed by Occupational and Physical Therapists.

When you email us at [info@adaptivemall.com](mailto:info@adaptivemall.com) or call us at 1.800.371.2778, you will be connected directly to one of our therapists. We are licensed therapists with extensive field experience and are here to provide you with assistance in choosing the most appropriate equipment for your child's specific needs.

We have a "SIZE HELP" Request Form on the Home Page of the Adaptivemall.com®, which is a simple form that you can fill out along with your child's own therapists and doctors. You provide us with some critical measurements and indicate the type of equipment you are interested in. Our therapists then match the measurements and criteria you provide to the adaptive

equipment offered at the Adaptivemall.com®. Many people find this service extremely helpful, while others prefer to discuss things directly with our therapists by calling 1.800.371.2778.

Our therapists know the products we display online at the Adaptivemall.com®, and they work with you from initial contact through the entire order process. Our therapists not only help you choose the most appropriate equipment, but they also handle every aspect of your contact with the Adaptivemall.com®. That means that they take care of placing your order, which can be comforting given how complicated adaptive equipment can be with multiple optional accessories that are offered.

#### INFORMATIONAL RESOURCE TOOL

No matter how you prefer to search the Adaptivemall.com®, you will find the content to be very informative. The Adaptivemall.com® is set up like a library with many different categories to choose from. We offer quality brands of

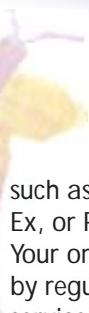

strollers, standers, seating devices, walkers, bathing equipment and more. Our Online "Categories" page allows you to drill

down from each category level to individual products that may meet your specific needs. The Online "Brands" page allows you to browse by manufacturer if that is the way you prefer to search. There is also a fully functioning Online "Search" device offered at the Adaptivemall.com®, which lets you search the site, by key word.

Our therapists write the copy for each product, and ensure that the therapeutic benefits of each device are explained. All of this is complemented by product pictures and pricing information. Product information is supplemented by our therapist e-mail and phone support, all of which is provided to educate and empower you. We hope that you find all of this to be a meaningful resource tool when you are evaluating and choosing adaptive equipment for your child.

### **FREE SHIPPING**

The Adaptivemall.com® provides FREE Shipping and Handling anywhere in the 48 Contiguous United States of America. Your order must be \$100 or more to qualify. If your order is less than \$100, a \$7.00 shipping and handling fee will be added regardless of size or weight! Shipments are sent via commercial ground carriers

such as UPS, Fed Ex, or Parcel Post. Your order will travel by regular ground service which usually takes 2-5 working days.

For orders to Hawaii and Alaska, we give you at least 2 shipping options to choose from. For International Customers, Adaptivemall.com will pay to ship your order to the US domestic port of departure as if you were a domestic customer at your request. However, the shipping charges for overseas destinations, including any taxes and duties imposed by your own government, must be paid by the international customer (consignee). Contact us for specific shipping quotes.

If you require rush delivery methods, our therapists will provide you with alternatives and pricing.

### **30-DAY TRIAL & GUARANTEE**

Our 30-Day Guarantee Policy allows you to try out the product. Return it to us in like-new condition within 30 days without a re-stocking fee.

The only risk you take is the potential of paying for the Return Shipping. Rest assured that with the thorough work our therapists provide, people are satisfied with the quality and size of the adaptive equipment they purchase. The result has been very few and far between returns from our customers. Our system can work for you too!

### **ALWAYS ON SALE**

The Adaptivemall.com® provides discounted adaptive equipment prices well below Suggested Retail Prices. We realize that many parents and caregivers are concerned about the high cost of adaptive equipment relative to mass marketed items. We do our best to positively influence the final price wherever it is possible. The base Sale Price\* for each product is listed in this catalog. For complete accessory pricing information, log-on to [www.adaptivemall.com](http://www.adaptivemall.com) or call us at 1.800.371.2778 for our most recent product updates and SALE prices.

Our products are always on SALE!

### How We Started...

The Adaptivemall.com® was founded by Tim Bergeron and is a family owned and operated business. The Adaptivemall.com® is an Internet Catalog that not only offers quality items, but also provides you, the consumer, with empowering information.

Tim is also the founder and original designer of the Tumble Forms® product line. He has over 25 years of experience designing, building, and selling adaptive positioning equipment. The Adaptivemall.com® is pleased to introduce Tim's latest product line, Special Tomato™. Tim has coupled his design experience with a new manufacturing process that provides soft durable, impermeable cushions for positioning children with special needs. Featured online at the Adaptivemall.com® and here in the Adaptivemall.com OFFLINE™ Catalog, is the first Special Tomato™ Product: the Multi-Positioning Seat.

Now you may be asking, "What's so Special about Tomatoes"? Tim is pictured here with his youngest daughter, Carrie, a young adult with Down syndrome. Carrie's story, "The Special Tomato", summarizes what Tim believes that most parents feel about their child with

special needs. "Every child is special in their own unique way. It's a parent's job to find the way to facilitate their child's growth in a way that includes them equally within the family and community." For children with physical disabilities, adaptive equipment can play an important role in helping them reach their highest functioning level.

### The Special "Tomato" on the Bergeron Bush

My dad and mom had four children. The first three children were healthy and regular people. Then I came along, a baby with a difference, Down Syndrome. I had a hole in my heart, a rip in my heart valve, jaundice, a big tongue and a wobbly head. As I got older I also realized that I am a slow learner.

One day it was bothering me that I was having a hard time doing my school work. I told my dad about this problem and he shared a story about when he was out in his garden picking tomatoes the year I was born. Every year my dad grows a garden and loves to plant tomatoes. At harvest time there were Beefsteak tomatoes on a bush. When he saw a differently shaped tomato it got his attention. It had a large, smooth, bright red enlarged side that made my dad want to pick it up and study the bump because it was so unique and looked appetizing. At supper, that tomato was just as juicy as the others.

Even though I'm different like the tomato as a person with Down Syndrome, my family and friends love me even more and want to help me when I need it. My dad tells me that even though I have more difficulty learning than my brother and sisters, my lovable and outgoing personality and strong character make me just as special as they are. I guess I am the special "tomato" on our family's bush!

Carrie Bergeron, copyright 2001

# Introducing the SPECIAL TOMATO™ MPS

## The Special Tomato™ Multi-Positioning Seat (MPS)

offers comfortable and proper seating. The unique Hip Flex™ adjustment provides true seat to back angle positioning. The MPS offers:

- Wide growth range targeted for users 2 to 8 years
- Easily adjustable seat cushions to accommodate each child's unique positioning needs
- Hip Flex™ adjustment of 15° flexion and 15° extension without recline
- Thigh Depth Extension Seat Cushion allows for child growth
- Height adjustable Head Cushion (22" to 27" seat to top of head) & Back Cushion (15" to 19" seat to top of back cushion) with Lateral Support
- 5-point adjustable belt system holds children comfortably in proper seating position
- Floor Base has 10°-25° of tilt and four swivel casters with rear brakes
- Activity tray is depth adjustable with 30° of tilt
- Footrest adjusts to accommodate full growth range (Seat to footrest adjusts 5" to 13")
- Specifically designed to fit an Umbrella-Style Convaid Transportable Push Chair Base with bus anchors allows for safe school bus/van transport
- Attachment Straps allow use on most standard home and school chairs
- Not intended for use as a stand-alone car seat

The Special Tomato™ Multi-Positioning Seat can be easily adjusted to either accommodate multiple users or to simply grow with one child. This makes the seating system a long lasting seating solution that is perfect for peer interaction, sitting outside on the deck, or dinner at your favorite neighborhood restaurant.

Truly "The Seat for All Places™"!

## The Kimba TRS Twin Tandem & the Kimba TRS Plus Twin Tandem

provide dual Recline and Tilt-In-Space seating system frames in an in-line stroller frame. Individual seats chosen to accommodate the specific positioning needs of each child. Each seat can face forward or backward in the stroller. The Tandem Stroller Bases can support a total weight of 110 pounds.

Please contact Customer Service at Toll-Free 1-800-371-2778 to help you customize the seats for each child.

### Is this Product Right for You?

- Adjustable Tilt-In-Space & Recline Seats
- Seats adjust to accommodate growth
- The "Kimba TRS" is for children with mild to moderate disabilities
- The "Kimba TRS Plus" is appropriate for children with moderate to severe disabilities

## Standers - Mobile, Three-Way, & Upright

Prices  
Starting at  
\$1,280.95

The **Snug Seat® Rabbit** is a mobile stander that utilizes self-propulsion. The Standard Rabbit standing frame will easily support children with moderate physical involvement. Optional accessories available to increase head, trunk, and/or pelvic support.

Is this Product Right for You?

- Promotes independent mobility indoors and outdoors
- Adjustable chest and knee support
- Drum brakes, angle adjustable footboard, pneumatic tires and non-friction handrims
- For children with mild to moderate disabilities

Features	Rabbit
Foot to Axilla	23"-36"
Foot to Knee	7"-16"
Inseam	11" - 17"
Chest Support Width	11"
Weight of Unit	24 lbs.
Weight Capacity	88 lbs.

The **Snug Seat® Giraffe Stander** is meant to be a child's first stander, lasting from toddler to pre-teen years. This 3-in-1 stander offers prone, supine, or upright standing. The Giraffe is also available in a prone standing only frame.

The Giraffe comes with one upright center spar that adjusts to accommodate your child's growth. The center spar is available in three sizes depending on your child's height. When the child grows out of the 24" or the 36" center spar, simply purchase the next size spar to increase the height range the Giraffe will accommodate. This means that you buy only one standing frame and change out the center spar as needed, saving you money!

Is this Product Right for You?

- Promotes upright positioning
- Adjustable to accommodate growth through the years
- For children with mild to more severe disabilities
